Conference Description

The purpose of this activity is to equip the learner with the knowledge to provide high level and evidence-based, developmentally supportive care to infants and families in Newborn Intensive Care Units (NICU).

Target Audience

Nurses, physicians, respiratory therapists, physical therapists, occupational therapists, speech-language pathologists, psychologists, and early intervention developmental specialists

Learning Objectives

At the end of this educational program, participants will be able to:

- Describe comprehensive approaches to developmentally supportive care.
- Discuss synactive-based, physiological foundations necessary in NIDCAP approach for all feedings.
- Identify environmental factors that support families and ways to prepare for the infant's transition home.
- Discuss ways to support infant-driven feeding.
- Analyze the techniques of optimal infant positioning and use of guided and skillful handling to support optimal oral and respiratory functions in infants post intubation.
- Discuss supportive care of the infant with Neonatal Abstinence Syndrome, their family and the staff.
- Discuss ways to advance developmentally supportive care into practice and NICUs.

Sponsors/Exhibitors:
