Conference Description

The purpose of this activity is to equip the learner with the knowledge to provide high level and evidence-based, developmentally supportive care to infants and families in Newborn Intensive Care Units (NICU).

Target Audience

Nurses, physicians, respiratory therapists, physical therapists, occupational therapists, speech-language pathologists, psychologists, and early intervention developmental specialists

Learning Objectives

At the end of this educational program, participants will be able to:

- Describe comprehensive approaches to developmentally supportive care.
- Identify environmental factors that support families and ways to prepare for the infant's transition home.
- Discuss cues and critical indicators of feeding readiness and needs for breaks.
- Analyze specific infant behaviors and suggest options for responding.
- Describe elements of relationship-based care.
- Discuss supportive care of the infant with Neonatal Abstinence Syndrome, their family and the staff.
- Discuss ways to advance developmentally supportive care into practice and NICUs.
